

Boundary Value Problems: Replacement Disk, 1999, David L. Powers, 0125637357,  
9780125637350, Academic Press, 1999

Boundary Value Problems, Fourth Edition continues to be the leading text on boundary value problems and Fourier series. The author, David Powers, has written a thorough, theoretical overview of solving partial differential equations by the methods of separation of variables. The text is comprised of five comprehensive parts which include: a prerequisite summary of ordinary differential equations, Fourier series, and solving linear partial differential equations by separation of variable methods, by Laplace transform methods, and by numerical methods Also, both professors and students will agree that the author is a master at creating linear problems where the techniques of separation of variables have been used to solve science and engineering problems.
